DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-9 and 15-18, drawn to a monolithic circuit chip for use in an imaging optical code reading device having a radio frequency communication capability which comprises a complementary metal oxide semiconductor (CMOS) imager, CMOS microprocessing circuits, and a memory for providing non-volatile data storage, as well as a method for using the monolithic circuit chip, classified in class 235, subclass 462.13.
 - II. Claims 10-14, drawn to a monolithic circuit chip that comprises a sensor array, a digitizer, and a decoder, classified in class 235, subclass 462.27.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions of Group I and Group II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention of Group I has separate utility such as its use in imaging without an integrated decoder. The invention of Group II has separate utility such as its use with wired, not radio frequency, communication during the imaging process. See MPEP § 806.05(d).
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 2876

4. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.
5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
